

Xero Partnership

Upstreamly

UPSTREAMLY

Make managing your business easy

Xero's online accounting software is simple and smart, providing financial visibility to over 1 million subscribers around the world.

1,700+ Employees → 1 Global Team → 1 Million+ Subscribers

Upstreamly are able to build solutions using Xero and the multitude of add-ons available, to ensure the complexities of your Upstream oil and gas business are captured, with the final outcome being compliant, efficient and effective accounting and reporting.

What is Xero?

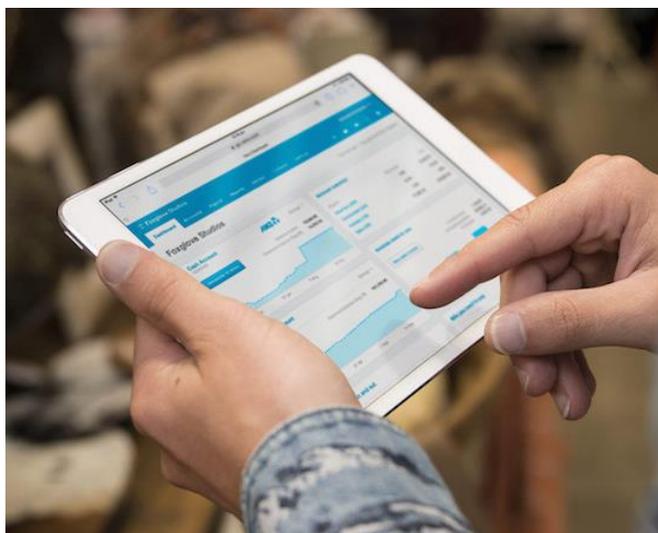

Xero is online accounting software that enables small businesses to work in real time with everybody involved in their business, including their accountant or bookkeeper.

There's no software to install and it's no hassle to set up. Xero makes doing business better by connecting the right people with the right information, anytime, anywhere, and on any device. Xero cloud-based accounting software connects people with the right numbers anytime, anywhere, on any device. For accountants and bookkeepers, Xero helps build a trusted relationship with small business clients through online collaboration.

Xero help over 1 million subscribers worldwide transform the way they do business. And they're just getting started.

- Xero integrates with 500+ add-on applications allowing people to customize Xero to their needs.
- Xero connects with 16,000+ accounting and bookkeeping firms worldwide. We create practice tools that help partners extend their services and provide added value to small businesses.
- Businesses can improve cash flow by getting invoices paid faster on Xero. Access to real-time account information and business tools from your Mac, PC, tablet or phone means greater control and better decisions.

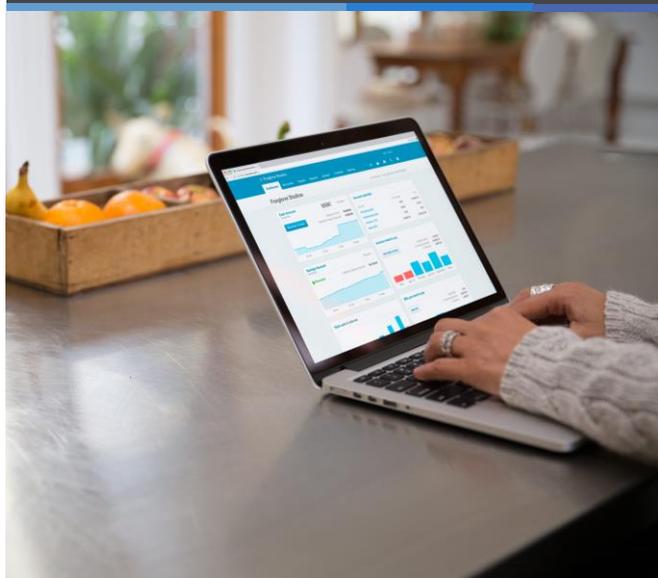

“Life without Xero was a nightmare”

The Xero accounting software lets you:

Keep your cash flow healthy with online invoicing

- Add your logo to invoice templates or custom design your own.
- Sends an invoice as soon as the job is done.
- Accept payments online with a debit or credit card or with PayPal.

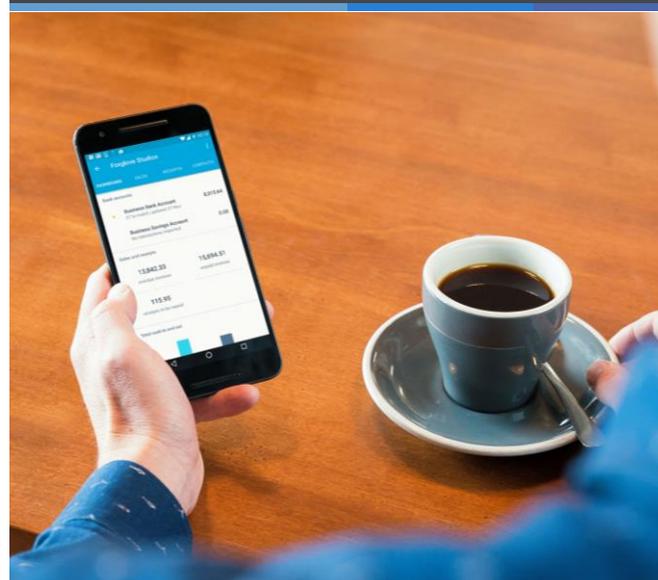

Work while you're on the move with the mobile app

- Match your bank transactions from your phone.
- Record your expenses and avoid lost receipts.
- Enable your employee's access to raise invoices and claim expenses on mobile without exposing all financials.

Record, claim and manage expenses and receipts

- Automate invoice payment reminders and get paid faster with tailored emails to your customers.
- Reimburse yourself and the business by recording all your purchases in Xero.
- Add photos of your receipts to your expense reports.

Flexible Access Anywhere

Our team has extensive first-hand experience in setting-up, managing and running finance functions in the oil and gas industry, both in the UK and internationally.

Why Us?

We know our stuff - Our team is made up of individuals, employed for their unique set of skills and talents, brought together by their interest in the oil and gas industry.

Our principal and founder, Amir Absoud, founded Upstreamly in May 2015, following the downward spiral in oil prices, with the primary aim of providing an alternative, tailored and expert solution focused on the upstream oil and gas industry in the UK and globally.

Amir is particularly interested in streamlining finance functions of clients through a higher level of automation and ensuring they work seamlessly with other departments including procurement and operations to add value as business partners.

Our team has prior experience working in a variety of finance functions within international oilfield service companies and oil and gas operators.

We aim to provide a high quality, industry-focused service to clients who require the very best professional advice, whilst retaining a personal feel. We are committed to providing exceptional advice on a range of services, from complex commercial transactions to ordinary day-to-day issues.

Upstreamly - Helping streamline the oil and gas industry
